NASA NEWSLETTER FOR
INTERNATIONAL ULTRAVIOLET EXPLORER (IUE)

NO. 2

Dear Colleague:

The present issue of the IUE Newsletter (No. 2) contains the list of objects observed by the European Space Agency (ESA) and the United Kingdom IUE teams. The period covered is through the end of August 1978. The listing of the objects observed by the U.S. guest observers since August 1, 1978 will be included in the next issue.

We wish to note that the day numbers given in the list of the objects observed, (contained in the first issue), are defined in such a way that January 1, 1978 is day 1.

The content of the current issue will be found on the following page as usual.

We wish to thank Dr. Peter M. Perry and Ms. Vicki L. Wright for their efficient assistance in preparing the Newsletter.

Cordially,

Yoji Kondo
