

IUE Observatory Schedule

As of June 1982 nearly half of the fifth episode observations have been scheduled. Guest observers with scheduling requests may use the following form to communicate their wishes. The form has been revised to include indication of high priority targets and requests for concurrent use of the Regional Data Analysis Facility at Goddard Space Flight Center.

Schedules for January through August 1982 (as of June 1982) follow. Listed for each shift are the date, local time, observer's name, program identification code, and staff members' initials. Further revisions are probable. For up-to-date scheduling information, please call any Resident Astronomer at (301) 344-7537.

Catherine L. Imhoff
IUE Resident Astronomer

IUE Scheduling Request Form

Date:

Principal Investigator:

Program:

Special scheduling request:

- _____ time critical observations
- _____ variability monitoring
- _____ high priority targets (indicate below)
- _____ collaborative exposures
- _____ alignment of object within aperture
important (please give required position angle below)
- _____ coordinated ground-based observations
- _____ contiguous US1 and US2 shifts preferred
- _____ more than one observing run preferred
- _____ use of Regional Data Analysis Facility in same run
- _____ other (specify)

Please give details below. If a certain date is required please indicate the size of a window that would be acceptable.

Please send to: C.L. Imhoff
Code 685.9
