IUE DATA REDUCTION

XXX. Implementation of New Dispersion Constants

by Thompson and Turnrose

This article as published in NASA IUE Newsletter No. 20, (January, 1983) contained three errors in Table 3 affecting the a_1 and a_3 coefficients for LWR high dispersion and the b_6 coefficient for LWP high dispersion. The correct values for these coefficients are listed below. A complete listing of all the current dispersion relations can also be found in "IUE Data Reduction Memo XXXII. Temperature-Correction of LWP Dispersion Constants" contained in this newsletter.

	LWR High	LWP High
a_1	-4877.918	
a_3	-5522.146 (-10)	
b_6		180.210 (-10)
