

SURVEY ON GRADUATE STUDENT TRAINING WITH THE IUE

We are conducting an informal survey on students trained with the IUE. We are in particular interested in learning how many students have thus far received bachelor's, master's and doctorate degrees using the IUE as a vehicle, partially or fully, for training. We would appreciate receiving responses from the past and present IUE guest observers who have trained students or who have been trained as students. Brief communications (just a few lines) from you will be all we need for our purposes and will be much appreciated.

Yoji Kondo

IUE Project Scientist
