May 20, 1989

Dear Colleague:

It is a pleasure to transmit IUE NEWSLETTER #38 to you. This issue is devoted to the agendas of the last two Signal-to-Noise Working Group meetings that took place at Goddard in September 1988 and January 1989. Some of the topics discussed are reproduced here; some minor discussions were presented but have not been written up; two additional related items are included in this NEWSLETTER. The name of the Signal-to-Noise Working Group was changed to Final Archive Definition Committee (FADC).

We thank Joy Nichols-Bohlin for organizing the material and collecting the articles for this issue. The usual assistance of Mona Drexler in preparing the articles and the contributions of the authors is gratefully acknowledged.

Sincerely,

A handwritten signature in cursive script that reads "Walter A. Feibelman".

Solar Physics

TABLE OF CONTENTS.

Title and Contributor.	Pages
Introduction. J. Nichols-Bohlin	1 - 2
IUE Final Archive Definition Committee (FADC)	3 - 6
Agenda and Report of the September 8-9, 1988 Meeting of IUE Signal-to-Noise Committee.	7 - 18
Agenda and Report of the IUE Signal-to-Noise Working Group Meeting, Jan.26-27, 1989	19 - 33
Instrumentally-Induced Periodic Signal in IUE Images. R.A. Shaw	34 - 40
Investigation of the Fixed Pattern in Raw IUE Images as a Fiducial for the Geometric Correction. M.D. De La Pena	41 - 63
ITF Registration Study and Time Dependency of the ITFs. J. Nichols-Bohlin	64 - 74
Improvements in the Photometric Correction: Non-Linear Interpretation between ITF Levels. R.A. Shaw	75 - 82
Investigating the IUE ITF as a Model for the Camera "Fixed Pattern" M.E. Van Steenberg	83 - 91
Improvement in the Signal-to-Noise Ratio in the One-Dimensional Image, I. J. Nichols-Bohlin	92 - 103
The Impact of Systematic Extraction and Data Handling Errors on the Photometric Quality of High Dispersion LWP Data. C.A. Grady, M.A. Smith, M.P. Garhart, and G.F. Fireman	104 - 112
IUE Calibration Progress Report - Plans for the Future. N.Oliversen and M. Crenshaw	113 - 118
Final Archive Database Format K. Levay	119 - 122
Preliminary Study for the Development of an IUE High Dispersion Line-by-Line File. M.A. Taylor	123 - 133
Quick Study of S/N Degradation Due to High Background and S/N Improvement from Using a Flat Field in IUE Spectra of WD1327-083 - Wolf 485. R.C. Bohlin	134 - 142
